Utility Billing Changes Coming!

Effective February 1, 2022, the City of Archer City will be rolling out changes to our red tag and disconnect policies.

THE CITY OF ARCHER CITY WILL NO LONGER DISTRIBUTE RED TAGS. THE PINK LATE CARDS WILL SERVE AS THE DISCONNECT NOTICE.

Prior policy allowed for past due accounts to be paid no later than the 15th of the following month or the account was subject to disconnection. Starting February 1st, 2022, the City will begin processing disconnects on the 1st of the month for accounts not paid by the end of the previous month. We will also no longer provide payment extensions for late payments.

Going forward, if the City terminates service for non-payment, we will immediately final the account and apply the deposit. What that means is that in order to reconnect, the City will require the entire balance owed on the account, paperwork for new service, and a new deposit, **which will increase to \$300.00 based on past payment history**. Failure to reconnect to City services in a timely manner may result in citations being issued.

We encourage everyone who is not current at this time to prepare for the upcoming changes before they take effect.
