RE: COVID-19 Update

Total Cases to Date	Recovered
6	3

To the Citizens of Archer City,

At the time of this release there have been three new cases reported within the city limits of Archer City. We also have great news to report, since the last release, the first three cases in Archer City have recovered.

I am going to start updating by using the format above. This chart will only be updated when the numbers change, not daily.

Also, I want to thank everyone for doing their part and reassure you that together we will defeat this and return to normal. Always remember a community that is together is stronger.

Thanks,

A handwritten signature in blue ink, appearing to read "K. Green".
