RE: COVID-19 Update

To the Citizens of Archer City,

At the time of this release there have been two new positive cases located within the city limits of Archer City. At this time there are three residents that have tested positive for COVID-19 that reside within the city limits.

I was notified of these two new positive cases late this evening by Archer County Officials.

The contact tracing is being completed by the proper officials. I would like you all to remember limited information is released to local County and City officials when a positive case arises, since our jurisdictions use State resources to fulfill the role of the health department, unlike Wichita County who has their own health department.

My thoughts and prayers go out to these individuals. As always, I pray for a healthy recovery, and I ask you to join me in doing so.

Let me remind you again, this is not to cause a panic, but it should be a good reminder that we are not immune to this in Archer City.

Please continue to use common sense, if you are sick stay at home, and if you feel uncomfortable going out in public you should stay at home when possible. A community that is together is stronger.

Respectfully,

A handwritten signature in blue ink, appearing to read "K. Green", is written over a light blue horizontal line.

Kelvin C. Green
Mayor
